

Android App Development

Android has exploded onto the scene, developers are in short supply, and this is where we come in. We will go right from getting you set up to testing on your device. Participants will learn to develop applications in the latest operating system with practical implementation and begin managing their own applications like a professional at this workshop.

Agenda:

1. Introduction to Android Studio
2. Layouts
3. Working with Components
4. Views
5. Intents
6. Fragments
7. Firebase/Database
8. Building Simple Apps along the way
9. Tips and Tricks/Resources you can use

Requirement:

1. Android Phone with USB cable
2. Basic Programming Knowledge (Any Language).
